

European Universities: Forthem e la mobilità virtuale

Sabine Hoffmann

Università degli Studi di Palermo

CONDI
VISIONI

Conferenza GARR 2022
Palermo 18-20 maggio

Punti su cui fermarci

- European Universities – 20 progetti finanziati / 21 università italiane coinvolte
- Il progetto Forthem
- La Digital Academy: la mobilità virtuale come promotore per una didattica innovativa

EUROPEAN UNIVERSITIES

November 2017 Gothenburg EU leaders set out a vision for a European Education Area by 2025

May 22 2018: Education Council Conclusions highlighted that the European Universities could play a role in the creation of a European Education Area

PILOT PROJECT - ERASMUS+ Key Action 2

cooperation of Universities sharing the same vision and values

joint long term institutional strategies for top quality education, research and innovation

highly integrated and open study programmes combining modules in different countries

mobility as a contribution to European degrees recognized throughout Europe

European Education Area

Quality education and training for all

Statements sulla mobilità virtuale

Marcella Costa (Università di Torino), Scientific coordinator UNITA - Universitas montium:

For UNITA virtual mobility is a powerful means to ensure international mobility for all, offering the chance to experience an international academic environment to students and staff who are not able, for different reasons, to participate in traditional physical mobilities. This kind of mobility will be also offered to the extra-European universities invited to partner with UNITA thus representing a powerful tool to attract new students in the Alliance.

INCLUSION

Statements sulla mobilità virtuale

Alessandra Carucci (Università di Cagliari), Scientific coordinator EDUC:

EDUC fostered the collaboration between teachers of the partner Universities to develop shared innovative and experimental ways of teaching in new interdisciplinary courses, by exploiting the opportunities offered by ICTs. In such a way students coming from different universities are experiencing true modalities of virtual exchange with colleagues of a variety of nationalities and of different cultural backgrounds sharing their knowledge and experiences, by also collaborating in practical group activities.

Exchange

Statements sulla mobilità virtuale

Maurizio Marchese (Università di Trento), Scientific coordinator of ECIU:

UniTrento - as partner of the European Alliance ECIU University - believes in international mobility as a tool to strengthen community building for the whole ecosystem by offering opportunities that are inclusive, accessible, and sufficiently supported. The Covid-19 pandemic has also demonstrated the value of virtual or blended mobility which requires different approaches but also provides space for innovative developments such the launch of ECIU eXtended Reality Campus in 2021 as a pilot and testing ground for truly immersive stakeholder experience across Europe. Through the different types of mobilities (physical, virtual and blended) we aim to create societal impact, optimizing personalized learning and supporting communities of the different involved stakeholders: students, teachers, researchers, companies and organizations.

Stakeholders

forthem.

Fostering Outreach
within European Regions,
Transnational Higher Education
and Mobility

FORTHEM Alliance

Fostering **O**utreach within **E**uropean **R**egions, **T**ransnational **H**igher **E**ducation and **M**obility

WHAT'S?

Vs una didattica innovativa

Statements sulla mobilità virtuale

Sabine Hoffmann (Università di Palermo), Scientific coordinator of Forthem:

The University of Palermo is responsible for the creation of the Forthem Digital Academy, an online platform for virtual mobility, collaboration, and networking for students and members of academic and administrative staff. Through the synergy of various forms of actions, we have achieved a flexible and diversified educational activities in which the virtual and the physical dimensions are intertwined promoting dynamic and innovative learning and teaching.

Innovation
